

## Applications

ITT Control Technologies product lines are continually expanding to provide our customers with solutions for applications in military wheeled and tracked vehicle applications. Our extensive knowledge and experience within these industries enables us to provide our customers with superior analysis, products, services and support.

### Aerospace Controls

- Position Verification Switches
- Oil and Temperature Switches
- M1 Tank Hydrostatic Transmission Switches (7 total)

### Interconnect Solutions

- Communication Devices
- GPS Systems
- External Antenna Interconnect
- Engine Fuel Systems
- Transmission Interconnect
- Cabin Firewall Interconnect
- Brake Systems
- Sensor and Radar Devices

### Enidine

- Engine Isolation Mounts
- Hatch and Access Cover Actuators
- Shock Isolating Struts for Vehicle Seats
- Vehicle Suspension Dampers for Munitions Trailers
- Hydraulic Dampers for Armored Vehicle Doors and Stairs
- Custom Elastomeric Shock and Vibration Mounts
- Isolation Mounts for Vehicle Electronics and Displays
- Recoil Buffers for Individual and Crew Served Weapons
- .50 Caliber Recoil Buffers for MK93 Weapon Mount

## Solutions for Military Wheeled and Tracked Vehicles

## Global Presence

ITT is a diversified leading manufacturer of highly engineered critical components and customized technology solutions for growing industrial end-markets in energy infrastructure, electronics, aerospace and transportation. Building on its heritage of innovation, ITT partners with its customers to deliver enduring solutions to the key industries that underpin our modern way of life.

ITT Control Technologies provides durable and reliable defense products that aerospace engineers demand and military personnel deserve.

Founded in 1920, ITT is headquartered in White Plains, NY, with employees in more than fifteen countries and sales in more than 125 countries. The company generated pro forma 2010 revenues of approximately \$2 billion. For more information, visit [www.itt.com](http://www.itt.com).
